Man Not Intended for a Sluggard

WHEN work oppresses and the necessity of living drives us hard we are wont to complain of the work of life and wish for nothing to do, and yet they alone are happy who work, and they alone are of good to themselves and of use to the world who work. Work is a wondrous thing. It is the expression of man's endowments. It does not matter what kind of work we do, whether it be mental or physical, as long as we are active and not sluggish. It is a crime for a man who can dig a ditch and dig it well to become a tramp. It is just as much of a crime as it is for the man of intended genius to become a sluggard through the possession of too much money. The necessity which often compels work, the circumstances which press upon us and goad us on, are of the greatest good. Work is the salvation of the masses. It keeps in check many who, if unoccupied, would become the dupe of knaves and drift into crime. Through contentment with themselves it keeps the masses from plotting and harboring dissatisfaction with their country and government. A country whose industrial conditions are right is generally safe from domestic disturbances. Among idle men crime is bound to hatch.

Physical labor is attendant with no more work than is lots of mental effort, and yet it has been argued that there is such a thing as unproductive labor. As a matter of fact, all labor is really productive if we consider it in relation to the laborer himself as well as the good of society. If a man is benefited by his work, even in so little as being able to satisfy his inclinations or express his natural bent, that labor has not been unproductive of some good. It has produced a good state of mind which otherwise might not have been possible. Political economy, of course, deals with these things scientifically and on a broad basis; but there is much unsettled opinion in regard to these problems. The real value of labor, however, has never been questioned, for the real value is the good that work is to the worker himself and to the general harmonious organization of society. Through some limitation of fate a man may not be intended for or capable of any higher work than that of a street-sweeper, but if he works at that and does his work well he is worth more than the man of brains who is a drone through the abuse of alcohol or other excess. There is no less excuse for idle brains than for idle hands. The simple fact of a man being endowed with brains is no more or less than a man being given a pair of hands. If he does not make use of them he is no good to the world or himself. The continued disuse of anything will result ultimately in its extinction. So if the man of mind ignores his gifts or abuses them, his progeny will be a race of numskulls. Cultivate and make the best of what is in you, in order that you may further the world's progression. There is even such a thing as "stagnant souls." The stagnant soul belongs to the individual who is impervious to inspiration, who is indifferent to the whys and wherefores of his being, who is insensible to the world's beauties, who is unaffected by the divine thrill and the divine passion.

Stagnation of any kind is to be deplored, for man was not intended so.

THE trouble in Japan is to be deplored. The world stood in wonderment at the generosity of the Japanese conceding so much for the sake of peace, but now it seems that the peace envoys were not in a position to know the true pulse of the Mikado's subjects. The Japanese were in reality in a position to dictate any kind of peace terms. Realizing this, they feel that it has been humiliating for them, as victors, not to have secured more. They do not intend to be content with being called christian in spirit in having waived so much for peace. They want no lukewarm recognition of the position they really command, and for this we cannot blame them. It is better for the world as a whole that the war should end as it has, but after sacrificing so much and getting so little, many of the Japanese subjects have a feeling of rebellion in their hearts. It is hardly probable, however, that this spirit will dominate Japan very far or plunge her into a domestic disturbance, for the Japanese people are wily enough to see that if they do not stand by their nation and administrative agents, that they will be little better off than Russia; now so deep in the throes of revolution.

It behooves the owners of cattle to take stringent precaution against anthrax, the deadly cattle disease, which is prevalent in this vicinity at the present time. A number of our people who went to the circus at Napa last Saturday witnessed the burning of many infected cows and horses within ten miles of Sonoma. A timely warning can do no harm, as the disease is not very far from home, and its outbreak here would be most disastrous.

The Frisco flea which got into a man's ear probably wanted to get on the inside in regard to what the fellow heard about the fight.

You can now blow out the gas without any fear, say the newspapers, but the public is requested to try it first before believing.

The fellow who stole two hats probably wanted to have something on his devoted head besides trouble.

The New York metal-workers are on a strike. It's easy for them to get on their mettle.

The dentist who captured so many wives probably made a winning by giving them a fill.

A MAN died from eating a free lunch. Poor economy.

THE resignation of Public Printer Palmer has been demanded by President Roosevelt, as a result of his introduction of comparatively worthless typesetting machines in the Government Printing Department at Washington; and this incident suggests another reference to the fact that two or three of these "useless ornaments" were installed in the State printing office at Sacramento in less than six months after the present incumbent of that office (Shannon) took possession, notwithstanding the bitter protests of his fellow-craftsmen everywhere in the State. Let us sympathize with the unfortunate taxpayers and the poor printers as well.

HON. ARTHUR G. FISKE of San Francisco seems to have been "staked out" as one of the political leaders of the State, and the fair-minded, reputable, thinking men of our party are elated in consequence. Mr. Fiske is a broad-gauge man of his word, is true to his friends at all times, and he detests above all things the treachery and double-dealing too often practiced by politicians.

Catarrh

Is a constitutional disease. It originates in a septic condition of the blood and depends on that condition. It often causes headache and dizziness, impairs the taste, smell and hearing, affects the vocal organs, disturbs the stomach. It is always radically and permanently cured by the blood-purifying, alterative and tonic action of

Hood's Sarsaparilla
This great medicine has won the most wonderful cures of all diseases depending on septic or the septic habit.

FIFTY CENTS

IN some conditions the gain from the use of Scott's Emulsion is very rapid. For this reason we put up a fifty-cent size, which is enough for an ordinary cough or cold or useful as a trial for babies and children. In other conditions the gain is slower—health cannot be built up in a day. In such cases Scott's Emulsion must be taken as nourishment; a food rather than a medicine. It's a food for tired and weak digestions.

Massucci emphatically denied that he had ever promised to marry the plaintiff.

New Boat For Embarcadero

Report has it that Captain John F. Scheller, who has been farming in this valley for the last few years, has decided to return to his first love, and will soon be master of a vessel, though not on so ambitious a scale as were some of his earlier commands. After serving as master in the merchant service on the Atlantic coast, he was appointed, at the outbreak of the Spanish war, as captain of one of the transports in the military service of the United States. He served in this capacity through the Spanish and Philippine wars, on both the Atlantic and Pacific, and when the war was ended he retired from the sea and tried farming.

The decision of Captain Hauto to take his boat over to the Suisun run led him to think of navigation once more, and he is now having a boat built to ply between the Embarcadero landing and San Francisco.

The boat, it is understood, will have some novel features in order to fit her for running in the shallow parts of the creek without losing sailing qualities for the run on the bay. One feature that has been discussed is double engines and twin screw propellers. Officers in the construction department of the navy have been consulted in the preparation of the model, and the rig that will give the best satisfaction. The boat is to be sixty feet long and will be equipped with engines heavy enough to insure a high rate of speed in all kinds of weather. It is expected that the boat will be ready to go on within a few weeks. Captain Scheller is very enthusiastic and is pushing the preliminary work ahead most energetically.

Mr. and Mrs. J. M. Allison visited the county seat on Tuesday of last week.

Miss Carrie Lemoine was up Saturday and Sunday of last week visiting relatives.

Judge Cook sent three registered hogs to the State Fair at Sacramento last Sunday.

Mrs. Trowbridge will entertain the Woman's Improvement Club on the 9th of September.

Miss Minnie Coulter, County Superintendent of Schools, visited Glen Ellen and Dunbar schools last Thursday.

The Woman's Improvement Club were entertained at a delightful luncheon by Mrs. A. E. Gaige last Saturday a week.

Mr. Kundy has purchased a steam boiler for cleaning cooperage, which was a great necessity and is a great labor saver.

Mr. and Mrs. A. Froment entertained a number of their San Francisco friends at dinner on Sunday of last week, the occasion being the celebration of their tin wedding.

The hunting party consisting of Henry Chauvet, Jas. Pieratt, C. E. Wise, A. Julian and Frank Lutter returned from Mt. Kohler with a fine "buck." Dr. Pieratt said it weighed 246 pounds, but the other boys said, divide that by four.

The brick work of the building which is to be occupied by Mr. Hardman is completed and now the carpenters can take possession and rush the work along. When finished this building will be a credit to our beautiful little town.

Mr. Schelling, of the Schelling Foundry and Machine Shops of Santa Rosa, was down to the Kundy ranch on Wednesday of last week putting in a hydraulic wine press. Mr. Kundy is making extensive improvements for wine making the coming season.

A Boon to Our Producers

It is a boon to the producers of this valley to have a firm like Batto & Son doing business in their midst. Batto & Son handle hay, grain, mill-feeds, dried and green fruits. They take all they can get, and pay spot cash to our farmers, who are assured top market prices by the buyers.

After going business with this firm, our farmers can see the superior advantage over letting commission merchants in San Francisco and elsewhere handle their produce.

Batto & Son handle the bulk of the hay crop in this valley, and already this season have shipped 100 carloads of hay from various points along the lines of the California Northwestern and Southern Pacific railroads. They handle produce at every station on these railroads in this valley.

Sudden Death of Mrs. Chm

Mrs. Chas. Ohm, widow of the late Chas. Ohm, died suddenly at her home west of town at midnight Wednesday.

The cause of death was heart disease. The funeral will take place today.

Batto & Son are shipping large quantities of hay from Vineburg.

Sad Death of Former Resident

Mrs. Belle Perkins, wife of Will Perkins, and mother of Hazel, Adell and Chester Perkins, died at her home in San Francisco on Sunday.

Mrs. Perkins was formerly Miss Belle Ewell, who resided here some years ago. She was 47 years of age, and a woman whose beautiful traits of character endeared her to all who knew her. Her death is keenly regretted by her many Sonoma friends.

The funeral took place Wednesday in San Francisco.

JACK LONDON

WILL LECTURE

Well-known Author and Socialist Will Speak Next Week Before Sonoma Valley Woman's Club

Jack London, the well-known author and socialist, will lecture before the Sonoma Valley Woman's Club next Friday afternoon. Miss Celeste Granice of the California Landmarks and History section of the Club has charge of the afternoon program and secured Mr. London's consent to speak on this occasion. The young author's subject will be "Revolution," which is shortly to be published as an article in "Collier's." A large number of invitations have been issued and the afternoon promises to be one of great interest.

CONDUCTOR CORBALEY WAS ROBBED

Burglar Enters House of Popular Railroad Man at Glen Ellen and Got Seventy Five Dollars

Conductor Walter Corbaley of the California Northwestern is looking for a mysterious burglar, who entered his home at Glen Ellen last Friday night and stole \$75. Corbaley was fast asleep when the midnight crook got through a window and took his trousers and a candle from a chair near the bed and went out into another room to look for swag.

When the popular conductor awoke he straightway discovered that all was not right. His pockets had been gone through and \$75 taken.

The burglar had spread out the small money on the floor, leaving the dimes and nickels behind. Sixty of the seventy-five dollars was in gold, the rest in silver dollars, dimes and quarters. Although there was jewelry and other valuable articles in the house, nothing but the coin was molested.

Adam Adler visited Willis this week.

R. J. Dowdall went up to Willis Monday.

B. F. Pinder spent Wednesday in San Francisco.

Robt. Hall went down to San Jose one day this week.

Mr. and Mrs. Josh Burris are visiting Sonoma relatives.

Dr. G. D. Rich visited relatives in the valley Sunday last.

The Rices of Oakland are visiting the McGinnys over the 9th.

Mrs. Geo. Engler is taking a week's recreation in the metropolis.

Mr. and Mrs. Austin Keogh of San Francisco visited Sonoma relatives Sunday.

Mr. and Mrs. Chas. Ward of San Francisco were visiting relatives here Sunday.

L. Modini returned home Wednesday evening after a two day's visit in San Francisco.

Harvey Perkins attended the funeral of his sister-in-law in San Francisco on Wednesday.

Mrs. McElroy and the Misses Edna and Lucy McElroy have been visiting in San Francisco.

Henry Elliott, the well-known traveling man, was married this week, and is residing in Mendocino.

The Spauldings will shortly leave for a trip to Mendocino county in their automobile.

Arthur S. Luce Jr. of Santa Rosa has accepted the position of bookkeeper with the Sonoma Valley Bank.

Mr. and Mrs. Palestine came up from San Francisco Wednesday. Mrs. Palestine has been visiting in San Jose.

Henry Chauvet, Nick Neolini, and the Misses Henrietta and Adell Chauvet attended the circus at Santa Rosa last Friday.

Mr. Whiting visited San Francisco one day this week. The Whiting's are making some new improvements at their home southwest of town this week.

Mr. and Mrs. L. Sutherland, formerly of San Francisco, who have taken up their abode on the old Cooper ranch, will become permanent residents of the valley.

The Misses Millie and Elsie Richards, daughters of Mr. and Mrs. Theodor Richards, returned to boarding school Tuesday. The young girls are both accomplished musicians. Little Miss Elsie plays the violin beautifully and Miss Millie is a talented pianist.

Felici Clerici and Gabriel Sears took in the circus at Santa Rosa last Friday.

Johnnie Greene of El Verano Villa will take in the Native Son's celebration at Sacramento.

Mr. and Mrs. Louis Odono, of the "Last Chance" saloon, took in the circus at Santa Rosa last week.

Colonel McGarrity of El Verano Villa was visiting old acquaintances at Agua Caliente Springs on Monday.

James J. Silvey, one of the head guards at San Quentin, and wife, will spend a few weeks at the Swiss-American Hotel.

Rumor has it that one of our rising young men will soon take unto himself a wife. Hooligan will look for an invitation.

Eugene Kelly, a well-known barkeeper of San Francisco, was in town Sunday visiting his old friend, John "Laugh-on-You."

Harry Baines has been laid up with rheumatism for the past week. His many friends will be glad to hear that he is improving.

H. Marrow, the accommodating and good looking barber at El Verano Villa, will take in the Britt-Nelson fight a Colma on the 9th.

Austin Moore has resigned his position

FAITH AND FACTS

By GEORGE KINGDON

Copyright, 1905, by P. C. Eastment

"See here, Ted, I want to speak to you," said Miss Oswald.

"Wonderful!" exclaimed Steen in mock surprise. "At last she really wishes to speak with me."

"It's about Nell," explained Miss Oswald.

"Bessie," he cried in mock horror, "when one woman wishes to speak about another it is a man's full duty to shut his ears. I refuse to listen to scandal."

"It's of your own making," she said, with a trace of sharpness in her voice. "Mine!" he cried. "Bless your heart, I never had a scandal I could call my own, not even a half interesting bit of gossip."

"It's perfectly shameful the way you've acted toward that poor child," scolded Miss Oswald.

"Bessie," he asked, "has it ever occurred to you that as long as she had no complaint?" He paused to feel for the words.

"That it's no one else's business; I'll say it for you."

"No," he explained gently, "that was not just what I was going to say. I wanted to suggest that perhaps since Nellie did not complain it was just possible that she understood and that the others did not."

"Do you think," demanded Bessie, "that Nell has satisfactorily explained to herself the reason why, after being her shadow for weeks, you should suddenly drop her?"

"I think," he answered slowly, "that she has explained the matter far more satisfactorily to herself than you have to yourself. Do you care, dear, because I seemed to have forgotten you while you were away?"

"You must not call me dear," she said coldly, "and it is nothing to me

me to believe that?" she asked scornfully.

"With pleasure—both eyes." He came toward her and took the fair head between his hands.

"Sweetheart," he said tenderly, "by the love I hold for you and upon my honor as a man, I tell you that it is all right. Do you believe, O ye of little faith?"

Bessie studied the clear brown eyes intently for a moment, then with a cry she buried her head upon his shoulder.

"I do believe," she cried passionately, "but, oh, Ted, why didn't you tell me this before?"

"Because you applied gag law every time I tried to speak," he explained whimsically. "Every time I opened my mouth you objected, and I had to quit."

"But it was all so strange," she defended.

"It was funny," he corrected. "Do you remember that Mrs. Bradley's only idea is to get Nell married off to a rich man?"

"That's why she coaxed Buddington here," agreed Bessie.

"Well, she was going to put Frank out in the cold and give Bud all the running. Before Buddington got a chance to break in I was on the inside track, and I was rich enough to satisfy the old lady, who was not willing to risk a rupture for the sake of taking a gamble on the whole million."

"You were simply a fender against Buddington?"

"I was a thorn in his flesh," he laughed as the memory of those times came back to him. "I virtually drove him out of town and then dropped back and gave the place to Frank again."

"Ted," she pleaded, "can you ever forgive me?"

"Yes," he said promptly, "the very first chance you do anything you need forgiveness for."

Neglected Colds

Every part of the mucous membrane, the nose, throat, ears, head and lungs, etc., are subjected to disease and light from neglected colds. Ballard's Horehound Syrup is a cold and effective remedy. Kendrick, Valley Mills, Tex., writes, "I have used Ballard's Horehound Syrup for coughs and throat troubles; it is a pleasant and most effective remedy." Sold by L. S. Simmons.

Excursions to the East at Half Fare

During the coming summer months rare opportunity will be given to visit eastern cities at a minimum expense.

Tickets will be sold by the Denver & Rio Grande Railroad at practically half the regular rates, or one fare for the round trip from California points to Denver, Omaha, Kansas City, Memphis, St. Louis, Chicago and many other points. For a slight extra cost trip may be made via Portland with a free stop-over at the Lewis and Clarke Fair.

The world-famed scenery of the Denver & Rio Grande needs no introduction to most travelers. The Canon of the Grande, the Eagle River Canon, the Canon of the Arkansas, the Black Canon of the Gunnison, the Royal Gorge, and Pike's Peak, form but a part of that glorious panorama, all of which is viewed by daylight from the new observation cars with open tops—as one passenger said, "It is just like touring in an auto."

Through sleeping cars to all principal points east.

Mr. W. J. Shotwell, General Agt., D. & R. G. R. Co., 625 Market street, San Francisco, will, on application, quote lowest fares, arrange sleeping car accommodations and all details of your trip, and send you free some beautifully illustrated travel books. Write today.

THREE JURORS CURED

Of Cholera Morbus with one Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwinstown, county seat of LeFlore county, Alabama. He says: "While there I ate some fresh meat and some soured meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." For sale by Shoults & Co.

Cured of Lame Back After 15 Years of Suffering

"I had been troubled with lame back for fifteen years and I found a complete recovery in the use of Chamberlain's Pain Balm," says John G. Fisher, Gilman, Ind. This balm is also without an equal for sprains and bruises. It is for sale by Shoults & Co.

Abcess

ABCESSES, with few exceptions, are indicative of constipation or debility. W. H. Harrison, Cleveland, Miss., writes, Aug. 16, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cord in my leg to contract and an abcess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store who is now in Denver, Colo. He recommended a bottle of Ballard's Snow Liniment. I got a 50c size, and it cured my leg. It is the best liniment in the world." Sold by L. S. Simmons.

Vallejo is trying for a municipal electric light plant.

Chamberlain's Nugh Remedy

This is a medicine of great worth and merit. Try it when you have a cough or cold and you are certain to be pleased with the quick relief which it affords. It is pleasant to take and can always be depended upon. For sale by Shoults & Co.

Los Angeles felt a severe earthquake on Saturday last.

Beautiful Women

Plump cheeks flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. Mrs. Wm. M. Stroud, Midlothian, Tex., writes, May 31, 1901: "We have used Herbine in our family for eight years, and found it to be the best medicine we ever used for constipation, bilious fever and malaria." Sold by L. S. Simmons.

The State Fair has been a big success.

Chamberlain's Cough Remedy

Aids Nature

Medicines that aid nature are always most effective. Chamberlain's Cough Remedy acts on this plan. It allows the cough, relieves the lungs, aids expectoration, opens the secretions, and aids nature in restoring the system to a healthy condition. It is famous for its cures over a large part of the civilized world. Thousands have testified of its superior excellence. It counteracts any tendency of a cold to result in pneumonia. For sale by Shoults & Co.

Senator Bunkers has made a full confession.

Sprains

S. A. Read, Cisco, Tex., writes, March 11, 1901: "My wrist was sprained so badly by a fall that it was useless, and after using several remedies that failed to give relief, used Ballard's Snow Liniment, and was cured. I cannot say enough of it to anyone suffering from sprains." Sold by L. S. Simmons.

A bad accident happened to a carriage full of people on the Sapa Soda Springs grade this week.

Squirrels Are "Handy"

The handiness of the squirrel is something extraordinary in the animal world. He sits up on his hind paws and uses the fore paws in many ways just as a man does. He strikes with it and wands off a blow from another, and squirrel quarrels rarely go further than attempts to cuff each other like children. A lady who lives in our county and who is the protector of squirrels in that region told me that she had contrived a little rack to be filled with nuts, so that they came to the opening singly, one dropping into the place as another was taken out, and this was fixed by her window, so that she could watch the squirrels come. One day a squirrel took the last nut and was quietly eating it on the window ledge when another came and, finding none in the rack, went up to the eating squirrel and gave him a deliberate box on the ear and went away.—W. J. Stillman in Century.

Eyeglasses and Romance.

It is curious to observe that even the greatest realists do not venture to bestow eyeglasses on their heroines. It is rather odd, too, seeing how many charming women do in real life wear them and are not debased by them from the most dramatic careers and the most poignant emotions, but while the modern novelist has bestowed eyeglasses on everybody else he has not yet had the hardihood to put them on the nose of his heroine. Why?—Mrs. John Lane in London Outlook.

Recreate Umbrellas.

We English, of course, get what we call "lancet" to harden climatic changes. Nevertheless I am convinced that our scenery of denizens is compensated by our gray skies, our piercing east winds, our heavy, yellow fogs and our slushy roads and pavements. The waterproof face is the direct result of a firmament of lead. Many of us English people look like incarnate umbrellas.—London Queen.

Good Reason.

Marie, who never knew her lessons, was speaking of one of her little schoolmates, who always stood at the head of her classes. "I should like to be the father of such a little girl," said Marie's papa, wishing to point a moral. "No, you wouldn't, papa," said Marie. "Why not?" asked papa. "Because her father has been dead two years," said Marie.

One Sided.

Mr. T.—I think I shall give up my business, any day. I might as well have some enjoyment out of my money. Mrs. T.—Oh, not yet, Samuel! But when one of us dies I intend to give up housekeeping and see a little of the world.—Illustrated Bits.

A Reflection.

Daisy—Why was Maude Oldgirl so angry about her photographs? Didn't they flatter her? Maude—Oh, they were as pretty as the artist could make them, but on the back of each one it said, "The original of this picture is carefully preserved."

Strategy.

The minister who had difficulty in keeping his parishioners' eyes fixed on him during the sermon solved the difficulty by placing a large clock directly behind him.—Liverpool Mercury.

The Difference.

Freddie—What's the difference between being sick and an invalid? Coburn—An invalid, my boy, is one who makes those around him sick.—Harper's Bazar.
